

*Hollyhock Hill*  
SINCE 1928

Join us at the Hollyhock Hill [(317) 251-2294] Restaurant located at 8110 North College Avenue, Indianapolis, IN 46240 (That's College Avenue and 81st Street.) for our annual Spring Banquet. By special request, we are dining in a more elegant setting this year!

As always, we will be having a guest speaker, door prizes, fun and more fun in addition to great food and lots of it! Your menu and time is listed below. Stay as late as you wish...just leave before they lock the doors!!

Enjoy a cheerful and pleasurable Family Style Fried Chicken Dinner, Saturday, May 13, 2017 from 5:00 PM to 8:00 PM.

Begin your meal with a garden fresh salad, house made pickled beets, cottage cheese and hot baked rolls with apple butter. Next serve yourself with a platter of fresh pan fried chicken, with buttermilk whipped potatoes, cream gravy, sweet corn and smokey green beans OR a choice of three Farm-to-Fork Vegetables. Take your time, enjoy, it's all you can eat!! Soft drinks and tea are included. When you're finished enjoying the scrumptious signature pan fried chicken, dig into a scoop of all natural vanilla bean ice cream with chocolate sauce or wander over to sample fresh house made desserts. Vegetable tray is available upon request. Additional types of drinks, while extra cost, are well worth the price.

Thanks to Ned Newhart, we have a "guest speaker" lined up to speak. This gentleman's name is Kelly Lynch - V.P. of the Ft. Wayne Railroad Historical Society and very knowledgeable about the Nickel Plate Road steam locomotive #765. They (FWRRHS) are getting close to announcing the locomotive's 2017 excursion schedule for this summer and will share adventures of past excursions, this summer, and future plans to relocating this engine in a new park setting along the river in downtown Ft. Wayne.

Put this epic event on your calendar now, and invite your family, friends, neighbors, and eligible strangers to join our club so they may enjoy the camaraderie and benefits of membership while promoting large scale railroading.
